

More meaningful conversations for better business performance

The simplest and easiest way for managers and their teams to have:

- Better conversations
- Goals and OKRs that connect
- A better alternative to the annual appraisal

TalTrack is built by a team with deep, first-hand experience of shaping talent and performance management tools for some of the world's largest companies.

Continuous conversations mean continuous improvement. TalTrack encourages frequent check-ins, delivers data and insight that brings teams closer together, boosts weekly performance and drives the business forward.

The TalTrack advantage:

More meaningful conversations between managers and employees.

Increase visibility on performance data with powerful, contextual reports. Give employees more control of their careers, increasing engagement and loyalty. Make better informed, more objective people decisions.

Get 360° Feedback

Send praise and feedback

Check-in discussion template with performance data included

Identify top performers

And many powerful ways to help grow your organisation:

- Individual goals aligned to departmental & corporate objectives
- Tack progress against individual goals with scheduling and reminders
- Powerful dashboards - visualise business-wide trends
- Integrates with Slack, Teams, Skype
- Calendar, task and notification integration with Outlook and G Suite
- Training and best practices materials available online

Create your own rating periods

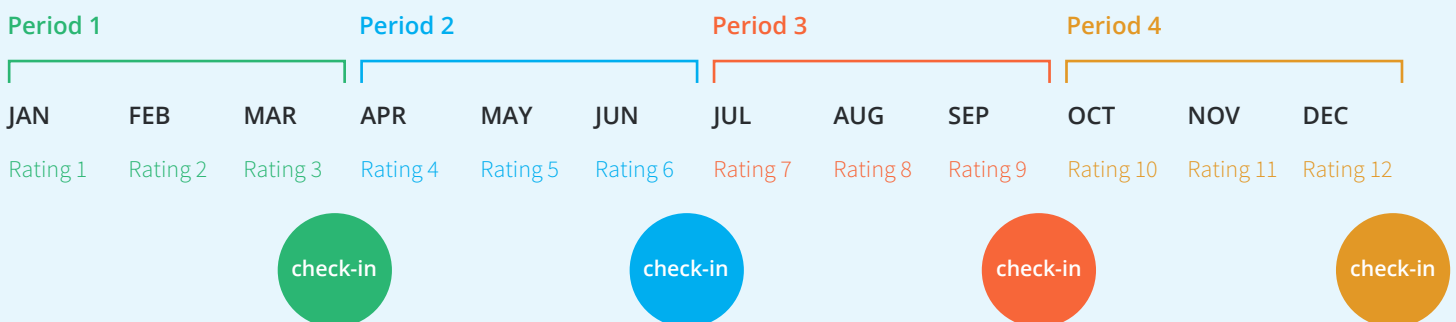

This team rate their goals once a month; then check-in quarterly to discuss progress.

Check-in period:

Employees and managers have a check-in meeting every 3 months to review the employee's progress.

Rating round:

Rate goals during each rating round to track progress online.
